## Experience

**Web Developer Intern**, Remote, Rajasthan, India May 2025 – June 2025  
*InternPE, (6 Weeks)*

- Designed Responsive, Cross-browser UIs With **Figma**, **HTML** and **CSS** for Client Projects.
- Translated detailed Figma mockups into pixel-perfect and functional front-end components.
- Managed code, branching, and collaboration with Git/GitHub in an agile team environment.

**Flutter Developer Intern**, Remote, Mumbai, India June 2024 – July 2024  
*Aliter Buisness Solution, (6 Weeks)*

- Designed and implemented intuitive mobile UIs using Flutter's declarative widget architecture.
- Translated design concepts into functional and visually appealing features, improving user experience.
- Advanced technical expertise by debugging UI components and exploring complex layouts.

## Projects

**JanAushadhi Medicine Delivery App / (System Design & UI/UX Prototyping)** [github.com/shreyanshdixit6206](https://github.com/shreyanshdixit6206)  
*(Ongoing)*

- Architected and designed a novel medicine delivery app, high-fidelity Figma prototypes.
- The project's innovative design is currently under evaluation for a potential **patent application**.

**Job Portal UI/UX Design a (Client Project)**

- Designed high-fidelity mobile and desktop versions of a job portal for a client using **Figma**.
- Created interactive prototypes with animations and transitions to simulate a real-world user experience.

**FindMyItem (University Lost and Found Platform) (Pre-Release)**

- Engineered a dynamic and secure lost-and-found web application to streamline item recovery on campus.
- Reduced administrative burden for staff with a modern and highly user-friendly interface.

**To-do List App (Pre-Release)**

- Collaborated with a team on the complete UI/UX design for a mobile to-do application.
- Guided the development process by creating wireframes, mockups, and interactive prototypes in Figma.

## Education

**Sharda University**, Bachelor of Technology - Computer Science Engineering Greater Noida, India  
GPA: 7.11 (3rd year, 2025) (Sep 2022 - June 2026)

**U.S International School**, Higher Secondary (12th) - CBSE Unnao, India (2022)  
Percentage: 70.2

## Skill Summary

- Languages & Framework:** C, Java, HTML, CSS, Flutter
- Design & Prototyping:** Figma (UI/UX Design, Prototyping, Collaboration)
- Tools & Platforms:** Git, GitHub, MySQL, AWS, Windows
- Professional Skills:** Leadership, Creative Thinking, Teamwork, Public Speaking, Time Management

## Certifications

**UI/UX Design Essentials – Daniel Walter Scott (Udemy)**

- Learned core UI/UX principles, including wireframing, prototyping, and user research using Figma.

**Full-Stack Web Development – Colt Steele (Udemy)**

- Gained hands-on experience with front-end and back-end technologies to build responsive web applications.

**Database Foundation – Oracle**

- Gained a solid foundation in database concepts, including SQL and data modeling.
